

BLMK ICB are pleased to offer the below eLearning modules, for adult social care (ASC) staff, hosted by [PrescQIPP](#) (a Skills for Care Endorsed Provider for England).

All ASC staff involved in medication should complete the following eLearning courses, appropriate to their care setting:

Care Home Staff (Nursing, Residential, Learning Disability)

The following courses have been purchased by the ICB, therefore **access is free** for adult social care staff across BLMK (using the access codes below). The courses support the implementation of recommendations in the [NICE guideline SC1 \(Managing medicines in care homes\)](#) and carry a NICE endorsement statement. The courses meet the requirements for training of care home staff who administer or assist with the administration of medication.
